## EXPERIENCE

### User Experience Designer // Amazon Web Services + Alexa AGI

Sep 2020 - present

- Led the end-to-end design of S3 Tables by transforming complex storage research into an AI-focused product in 10 weeks; designed AI-assisted workflows for analytics that drove a 10% WoW storage increase and 500 TB of data stored
- Partnered with UX Researchers and ML Engineers to define UX strategy for AWS Generative AI; delivered 29 features translating non-deterministic model outputs into reliable, automated user workflows
- Designed and optimized 30+ AI-supported interaction models; focused on the probabilistic nature of AI to create interfaces that handle model uncertainty and latency while maintaining user trust and agency
- Developed 13 AI-design and accessibility frameworks to standardize "natively AI" experiences; scaled 3 frameworks across 15 AWS services, ensuring a cohesive "north star" for emerging data and AI platforms

### Sr. User Experience Designer // Morgan Stanley

Jan 2020 - Sep 2020

- Orchestrated the design effort for 20+ large-scale projects to unify the wealth management suite, managing complex information architectures to achieve a 14% increase in adoption within 3 months
- Built and maintained scalable documentation for design language systems leveraged by 50+ designers across 4 global organizations, ensuring visual and functional coherence

### User Experience Designer // Insperity

Feb 2017 - Dec 2019

- Led the UX optimization of a 600+ page marketing ecosystem, leveraging data-informed insights and behavioral patterns to increase customer engagement by 253%
- Drove the development of a unified design system that reduced cross-functional development effort by 3 months through component modularity

### User Experience Designer // Purdue University/Siemens

Sep 2014 - May 2016 / Aug 2016 - Jan 2017

- Developed a nationwide research portal with the NSF, creating high-fidelity interactive prototypes to validate complex user research and pixel-perfect design concepts
- Established the design language for Siemens Active Workspace, centralizing UX standards and templates to improve cross-team alignment

## SKILL

### Tools & Technologies

Claude Code/Codex  
Cursor/Windsurf/Vercel  
Figma/Figjam  
Visual Studio Code  
Git/Github  
Adobe Creative Suite  
HTML/CSS  
Javascript/React  
SQL-based workflows  
SageMaker Unified Studio  
Bedrock

### UX Design skills

Agentic AI Design  
Systematic vibe coding  
User-Centered Design  
Interviews & Surveys  
Information architecture  
Journey mapping  
Persona & Scenarios  
Wireframes & Prototypes  
Usability testing  
A/B testing  
Visual design  
Responsive design

### Languages

English  
Cantonese  
Mandarin

## EDUCATION

### Purdue University

M.S. in Computer Graphics  
Sep 2014 - May 2016

### Wuhan University

B.E. in Industrial Engineering  
Sep 2008 - May 2012
